## QUALITY POLICY

Malaysian Industrial Geotechnical Sdn Bhd's goal is to provide customer satisfaction in **both stated and implied needs** through excellent quality in assembly of road rollers, supply of construction equipments and parts and after sales services relating to the construction equipment.

**We strongly believe this is achievable through inculcating the culture of operating an effective quality management system meeting the requirements of the ISO 9001:2015** at all levels of employees within the company, with committed involvement from top management down to the bottom levels of the organization and the **quality policy shall be understood and communicated throughout the organization.**

We shall continually seek to identify appropriate areas within the organization and undertake improvement programs with total participation from all employees to **continually improve and review for continued suitability of the quality management system of the company.**

All heads of department shall commit to **monitor and review the actual performance of quality objectives** within their respective functions. A timely action shall be initiated should the performance deviate from the planned measurable objectives by the relevant functions.

**Yap Min Leang**  
Managing Director
